Am seeing McCloy exclusively on transfer money IRSO is getting from Hessian Government for heirless property will not discuss major policy questions. Therefore as transfer question urgent and must be followed parallel action Washington inadvisable postpone my appointment McCloy. Cannot imagine any opposition your part trying obtain transfer for IRSO money by buying goods for Israel. Gelblum assures me has not indicated any difference opinion between myself you on German problem. But essential we have full discussion on German policies during my stay Israel arriving 27th staying a week Regards
