Dear General,

You will recall that at the end of the conference which took place in my office on 28 September it was indicated that a further meeting would take place a few days later, and a joint communique to that effect was issued.

I am now wondering whether you would not judge it opportune that we should meet again at your earliest convenience to review the situation in an attempt to find a common solution to the problem that has arisen.

At such a meeting we would be prepared to formulate definite proposals - if you should prefer it, in writing - for guarantees to be offered by us against any infringement of private rights in the Demilitarized Zone as a result of the project now being executed.

Apart from that, our experts would be glad to put before you, on the basis of maps and blueprints, a detailed exposition of the project in all its technical aspects.

I should be grateful if you could let me know when it would suit you to meet.

Yours sincerely,

Moshe Sharett  
Minister for Foreign Affairs

Major General Vagn Bennike,  
Chief of Staff,  
U.N. Truce Supervision Organisation,  
Jerusalem.
