Eban self saw Bunche yesterday. He delivered your message to Fawzi immediately upon arrival. He replied that he was genuinely interested your proposal and promised inform Naguib same day. On Suez blockade he said would be premature act now separately but should be dealt with context general settlement.

Bunche considers Fawzi's reply while noncommittal not uncompromising view Caffery's lukewarm attitude Israel Egypt settlement didn't convey him details exchange. On Caffery's priority list Israel Arab place figures as insignificant last preceded by Sudan Suez Medo.
