Press Hamisrad Jerusalem Israel

499 Mahav following is excerpt from today's Dulles press conference .

Question: What is American position regarding Israel expressed desire participate MOABIT Suez debate.?

Answer: After explaining that matter been discussed and adjourned for decision till this week Dulles said it seems to me that the view of Israel should come in some form or manner before MOABIT of course this has to be handled with care so as not to open the door to everybody. There will be no end. Then. The manner in which this should be done is still being studied but I certainly think that Israel's point of view on the violation of 1888 convention as found by MOABIT in 1951 should certainly come to MOABIT's attention.
